

UPDATE.

CONGO D.R

P.B.

To the North of Zambia is the 3<sup>rd</sup> largest country known as Congo D.R. We have sent dvds and other materials to this country through Robert and other men who have received the materials we send. In the power of God, we also reaching many souls through the radio. The word of God P.B is getting closer to the souls and hearts of many Africans of all classes.

Am delighted to share with you an update from Kasai in Congo D.R. Many Congolese understand English though they speak French. This country has very poor roads and taking the sick to clinics or hospitals is very hard. People die along the way. This is common in all the rural and remote places of this country.

It is in such places which are difficult to reach that your voice has a presence P.B. From the rural community of Kasai, is a man called Moise or Moses Katai. This man is a Methodist believer who enjoys every single sermon. Last year he was priviledged to learn a lot of truth through the radio and he received a tract about Islam and Isis, Moise was warmed in spirit. He read and re-read that tract and wrote to Robert asking him to send him more materials which he was willing to teach his church Methodist members.

Last year in October, Moise received books, tracts and a few dvds that I included. His was so surprised to receive a lot of materials from people he didn't know. He praised the Lord. For the next few months before this year, Moise devoted all his time in reading and listening to stunning messages in the dvds. He was so glad and excited to listen to new and fresh messages and the first was Behind the door series. Moise said the Lord has visited him with heavenly bread. This man P.B made copies of this series and shared to his church members who were so happy to have the American speak to them through this door.

A few weeks later, Moise praised the Lord and asked God to help him in doing what he was learning. His sosme of his church members were happy together with a few leaders. One day, Moise was allowed to bring his small radio in the church and use his radio which has a dvd player and shared with the entire dvd messages with some tracts. This church was also blessed with a few National Sunday Laws which their pastor was pleased to read about many revealing messages. Until last Month in March that Moise received the entire Revelation and Daniel series. With these series, he was able to conduct simple studies with

his members in the afternoon. This Methodist church has finally allowed Moise to be the leader in bringing the American in the church to speak.

P.B the DVDs are speaking and blessing Africa. My target is to reach as many people as I can before this door is closed.

Of late, there was a strange disease outbreak which was killing a lot of people. That disease was Cholera. Many people have since died while others have survived. Among the dead are the relatives of Moise. I am informed that during the epidemic of this disease, Moise gave hope to those folks who were dying including his relatives. He reminded the sick to remember what the good American has said in Revelation 22 about the new earth to come. P.B. Moise was instrumental to give hope to his friends and others in their community until the end of Cholera which claimed 470 lives.

Moise has since become an evangelist of their church. He was the first man to keep the Sabbath for the first time in his life. I will be sending more DVDs to Congo and other places.

It is for this reason P.B that when I am told what the DVDs are doing by those I trust, I also love to share with you such stories in my updates about your humble work to Africa. The end is coming and the messages which you have put together in those DVDs are a great blessing that will stand till the end of time. May God bless your work and fill your hands.

Another update is underway.
